

Clark Forklift

Clark Forklift Forklift Training - At this time, there are over 350,000 Clark forklifts performing globally, and more than 250,000 in commission in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specialized parts intended for 20 distinctive models of lift trucks and automated equipment. Your regional Clark Seller is your total source for availability of all your parts needs offered by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a really outstanding international support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional commitment to safety is now a customary feature on every forklift.

Clark has a unyielding objective to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a prevailing market position.

Supply Efficient Manufacturing

Clark has selected the structure of "Lean Manufacturing" at all of its assembly facilities for the reason that this method is particularly economical and allows for minimal use of resources. Developed to guarantee maximum efficiency, this system is intended to discover and acknowledge the most efficient ways for production facility stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Engine Design

By working collectively, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing expenses. The new value engineering program combines innovative product improvement and delivers superior customer support and service within the industry.
